Sure. It's [Nonresponsive Conference Code] participant code [Nonresponsive Conference Code]. I'll be sure to call in a couple of minutes early to open the line.

I'm good with switching to a different conference line. If you have one at hand then it will save me from digging out my reservationless plus one info. Other items great additions.

Hi Becky -

Thanks for setting this up and for sending the spreadsheets. It's a very helpful breakdown. Just as a heads-up, here are some of the other questions I've been kicking around; if there's time to discuss them under bullet 4 that would be great. I'll raise them on the call if there's time.

# Attorney Client/Ex. 5

Also, we have several people working remotely today. Is it too late to switch to a different conference call number? I can offer one if you think that would work. On the other hand, if you think it would make the call unmanageable to have that many people on the line, I'm okay calling in from one spot in R8 with just a few people.

Hi all – as we discussed yesterday, I'd like to get together for a short call Friday to touch base on Gold King Mine FOIA issues. I will be sending an appointment for a call at 1:00 p.m. EDT.

I've attached 2 spreadsheets – the first is the spreadsheet listing the 12 requests received to date (after consolidating the 6 CNN requests into 2 requests), as well as a spreadsheet I put together broadly categorizing the specific requests.

Items to discuss tomorrow:

# Attorney Client/Ex. 5

Also, I recommend that by the end of next week each Region/affected HQ office take a look at the spreadsheet categorizing the requests and give thought as to who would be the primary custodians in that Region/Office that would likely have documents responsive to each category.

Thanks,

Becky
